19th Century- Where Rizal lives that also marks the exciting century

Age of Enlightenment

- This is the era of liberalism, when people in Europe began to rely more on freedom, liberty, and equality instead of tradition, superstition, or unquestioned authority like absolute monarchs and the churches.
- This was started because people want to determine sovereignty since they are asking for a responsible government.
- It is not sudden that people felt these concepts. It began because of the printing press that people can spread knowledge across countries. Some philosophers could publish their ideas widely that influenced the people about the idea of liberalism. So they began to question the authorities of sovereignty and they demanded for good governance because of how corrupt it was back then.
    - Although this was marked as the age of liberalism in 1700, only wealthy people have the access to vote and hold the power. Women, workers, and slaves are excluded from voting.
    - However, this began to change in 1830 by the US, where all white men above 21 could vote, even if they're poor or have no power. Because people start to argue that **“If government comes from the people, then why is it only accessible for the rich?”** This forms the democratic party to represent the ordinary citizens.

POLITICAL CONTEXT. The struggle of Nationalism

- This is about how people in Europe tried to replace absolute monarchies with more democratic governments.
- Starting with the French Revolution (1789), many Europeans began demanding constitutions, rights, and representation instead of kings ruling by absolute power. These revolutionary ideas spread across Europe, and from 1789 to 1848 several uprisings happened — especially in France and the Austrian Empire. In Austria, rulers even created a dual monarchy with Hungary to calm nationalist movements.
- However, the big wave of revolutions in 1848 ultimately failed. The reason was that the reform groups were divided:
    - the middle-class liberals **wanted political rights** and **constitutions**
    - the working class wanted **economic equality** and **social reforms**
- Because they **didn't unite**, monarchies **regained control**. Still, absolutism was permanently weakened, and rulers could no longer ignore the demand for more representative government.

-

Conditions between Europe, America, and Asia

- The **United States** grew quickly in the early 1800s, expanding westward until it reached the **current 48 states by 1853**. It **defeated Mexico** to gain the West Coast. The **Democratic Party** supported this expansion and pushed for the removal of Native Americans, famously rallying around the slogan **"54-40 or Fight!"**.
- At the same time, **slavery caused deep divisions**: the South defended it as a way of life, while the North opposed it. There were heated debates about whether slavery should extend into new US territories.
- In **1854**, the **Republican Party** was formed to oppose the expansion of slavery and to support **free labor and big business**, marking a major political shift in the country.

President **Abrahan Licoln attempted to stop the expansion of slavery** tas nagalit yung US kasi nalaman ng mga black people na 2nd class sila, which means na slavery sila and na deprived yung freedom nila. And dahil don sa book na "**Uncle Tom's Cabin**" na isinulat ni **Harrlet Beechee Stowe,** and dahil don, nag triggered yung civil war from 1861 to 1865 which has a conflict inside the territory. And nung nakilala ni **Licoln** yung author ng Book, sinabi nia na **"So, you're the little lady who started the war"**. Kasi nabasa ng mga black american yjng book and doon nagkaroon ng freedom of slavery ung maraming tao

Sa asia naman, yung British nagkaroon ng colony sa HongKong and na force nito yung China na mag open ng mga ports sa five traders which follows china's defeat noong opium war ng 1839 to 1842. Japan was also forced open by the Americans under ng Commodore Matthew Perry

Conservatism vs Liberalism

- Sa spain, may nahati sa dalawang grupo ang mga intellectuals which is ung conservatism and liberalism. Sa liberalism, more on individual freedom and equality sila, while sa conservative, more on rules and orders yung mga tao dito, kumbaga more on social and political sila. Kaso, wala sakanila nagkaroon ng practical na solutions para matapos ang lahat ng kahirapan.

Spanish Constitution of 1876

- Since yung spanish constitution maraming sinasakupan na bansa hindi lang yung Pilipinas, kaso humina yung power nila sa buong mundo dahil sa mga Americans during SpanishAmerican war dahil mas malakas yung kapangyarihan ng mga Americans kesa sa mga Spaniards.

Frailocracy

- So yung Frailocracy, kilala sila na makapangyarihan pagdating sa social system ng Pilipinas during Spanish Colonization. Dati kasi noong time ni Rizal, iiisa lang yung politika at religion, kaya yung nag ccontrol talaga sa lahat ng nion is yung mga Friars and kilala din sila as richest landlords dahil yung simbahan kasi tsaka estado ay masyadong magkaugnay sa isat-isa kaya kontrolado ng mga Augustinians, Dominicans, and Franciscansyung pamahalaan, edukasyon, at pamumuhay ng mga tao sa bawat bayan. Although hindi kasali ang Jesuits dahil na expelled sila sa Pilipinas noong 1768 and bumalik noong 1859.

Secularization Movement

👉 Ang Secularization Movement ay ang panawagan o kilusan na ilipat ang pamamahala ng mga parokya (parishes) mula sa mga regular clergy (mga prayleng Espanyol tulad ng Dominicans, Franciscans, Recollects) papunta sa mga secular priests, na karamihan ay mga Pilipinong pari.

Mahahalagang punto mula sa slides:

- Nagsimula pa noong ika-16 na siglo sa kagustuhan ng Hari ng Espanya at ng Papa.
- Inatasan din ito sa Council of Trent.
- Layunin: ibigay ang pangangalaga ng simbahan sa mga paring diyosesis (secular clergy) kaysa sa mga prayle ng mga orden.

Pagkakaiba:

- Regular clergy (prayle) – nasa kumbento/orden, hiwalay sa karaniwang mamamayan
- Secular clergy (karaniwang pari) – direktang naglilingkod sa mga tao sa parokya (misa, binyag, kasal, atbp.)

📌 Sa madaling sabi:
Isang kilusan ito para ipamahala ang mga simbahan sa mga Pilipinong pari imbes na sa mga prayleng Espanyol.

GomBurZa

Noong panahon ng Espanyol, ang mga secular na pari (karamihan ay Pilipino) ay patuloy na humihiling na ipatupad ang utos ng Hari ng Espanya at ng Papa na ibigay sa kanila ang pamamahala ng mga parokya.

Ngunit tumanggi ang mga prayleng Espanyol (regular clergy) na isuko ang kanilang kapangyarihan.
Sinasabi pa nila na ang mga paring Pilipino ay mas mababa at hindi kasing galing, na nagpapakita ng diskriminasyon o rasismo.

Mga nanguna sa laban:

- Padre Pedro Peláez
- Padre Mariano Gomez
- Padre Jose Burgos
- Padre Jacinto Zamora

(Kilala sila lalo na bilang Gomburza.)

Kabuuang diwa:
📌 Ang Secularization Movement ay naging laban para sa:

- karapatan ng mga paring Pilipino
- pagkakapantay-pantay
- pagtigil sa diskriminasyon ng mga prayleng Espanyol

Hindi na lang ito tungkol sa simbahan — naging isyu na rin ito ng dangal at karapatan ng mga Pilipino.

Economic Context

1. 1834 – Binuksan ang Maynila sa pandaigdigang kalakalan
   - Pinayagan ang ibang bansa na makipag-trade direkta sa Pilipinas.
   - Dumami ang dayuhang negosyo at maraming mangangalakal na Tsino ang pumasok.

2. 1840s – “Spanish colony in name only”
   - Kahit sakop pa rin ng Spain ang Pilipinas,
   - ang ekonomiya ay kontrolado na ng mga Ingles at Tsino (Anglo-Chinese dominance).
   - Ibig sabihin: Spain ang namumuno sa politika, pero iba ang may hawak ng pera at negosyo.

3. Paglitaw ng bagong mayayamang uri (elite)
   - Yumaman ang mga Chinese merchants at mga mestizo (halo-lahi).
   - Sila ang naging bagong makapangyarihang grupo sa lipunan.

4. Mga apelyidong nabanggit (hal. Cojuangco, Lacson, Ongpin, Sancianco, Locsin)

- Mga halimbawa ng mga pamilyang yumaman dahil sa kalakalan.
- Sila ang naging bahagi ng ilustrado o principalia — edukado at may impluwensya.

✅ Buod:
Binuksan ng kalakalan ang Pilipinas sa mundo → dumami ang negosyo at yumaman ang Chinese-mestizo → nagkaroon ng bagong elite → unti-unting nabago ang lipunan at kapangyarihan (hindi lang puro Espanyol ang makapangyarihan).

👉 Mahalaga ito dahil dito nagsimula ang mga grupong kalaunan ay mangunguna sa mga reporma at nasyonalismo sa Pilipinas.

Mga Lihim ng Pamilya ni Rizal — Isang Buong Kuwento

Sa bayan ng Biñan, Laguna — isa sa pinakamayayamang bayan noong panahon ni Jose Rizal — nakatayo noon ang isang malaking mansyon sa gitna ng poblacion: ang bahay ng pamilya Alonso de Alberto, mga kamag-anak ng ina ni Rizal na si Doña Teodora Alonso. Sa paglipas ng panahon, naiwan itong walang nakatira at unti-unting nasisira, ngunit pinaniniwalaang saksi ito sa mga lihim at alitan ng pamilya ng pambansang bayani.

Malapit si Rizal sa kanyang ina, ang una niyang guro at malaking impluwensya sa kanyang pagiging bayani. Ngunit isang bagay ang nakapagtataka: sa family tree na ginawa ni Rizal noong 1896, halos kumpleto ang angkan ng kanyang ama na si Francisco Mercado, ngunit walang sangay ang pamilya ng kanyang ina. Nagdulot ito ng tanong — may tinatago ba ang pamilya?

Sa pagsasaliksik sa Biñan, ipinakita ng historyador na si Dr. Bimbo Santamaria ang lumang mansyon. Naniniwala siya na mahalagang bahagi ito ng kasaysayan hindi lamang ni Rizal kundi ng kanyang ina, na nagsakripisyo para sa pamilya at sa bayan.

Ang Iskandalo sa Pamilya Alonso

Ang may-ari ng bahay noon ay si Lorenzo Alonso de Alberto, isa sa pinakamayamang residente ng Biñan, ama ni Teodora. Isa sa mga anak niya ang bunsong si Jose Alonso, paborito raw ni Teodora.

Noong 1872, umuwi si Jose Alonso mula sa Europa at natuklasang iniwan siya ng kanyang asawang si Teodora Formoso at sumama sa ibang lalaki. Sa galit, ikinulong umano niya ang asawa sa isang bahagi ng bahay.

Upang tumulong sa kapatid, pumunta si Doña Teodora Alonso, kahit tutol ang kanyang asawang si Francisco Mercado. Dinalhan niya ng pagkain ang hipag kasama ang kanyang anak na si Saturnina. Ngunit pinakain muna ng babae ang aso — at namatay ito. Dahil dito, inakusahan si Teodora Alonso na tinangka niyang lasunin ang hipag.

Tinawag ang Guardia Civil at si Teodora Alonso ay ipinaaresto. Pinilit siyang umamin kapalit ng kalayaan at makita ang kanyang mga anak, ngunit kahit umamin siya, nakulong pa rin siya ng mahigit dalawang taon. Ang pangyayaring ito ay nag-iwan ng malalim na sugat sa pamilya at sa batang si Rizal na sampung taong gulang noon.

Ang Tanong sa Pinagmulan ng Angkan

Lumipas ang mga taon ngunit nanatili ang hidwaan sa pamilya. May lumabas pang mga teorya tungkol sa kanilang pinagmulan.

Ayon sa ilang historyador, maaaring half-brother lamang ni Teodora si Jose Alonso. May ebidensya raw na unang ikinasal si Lorenzo Alonso sa batang si Paula Florentino, ngunit kalaunan ay nagsama siya kay Brigida Quintos, ina ni Teodora. Kung gayon, maaaring itinuturing na “anak sa labas” ang ilan sa kanila.

May isa pang teorya: upang mapanatili ang karangalan at titulo sa ilalim ng pamahalaang Espanyol, ipinahayag ni Jose Alonso na siya ang lehitimong anak. Posibleng ito ang dahilan kung bakit tila “putol” ang family tree ni Rizal.

Dahil sa alitang ito, pinaniniwalaang hindi tumira si Rizal sa malaking bahay nang mag-aral siya sa Biñan at sa halip ay tumira sa kanyang tiyahin na si Tomasa Mercado.

Mga Tsismis at Mga Lihim

May kumalat ding tsismis na nagkaroon umano ng relasyon si Jose Alonso at ang pamangkin niyang si Saturnina, at ang bunsong kapatid ni Rizal na si Soledad ay maaaring anak nito. Walang patunay, ngunit ang mga ganitong kuwento ay lalong nagpalalim sa tensyon sa pagitan ng mga Alonso at Alberto.

Sa kabila nito, may mga dokumentong natagpuan sa Ateneo de Manila University na nagpapakitang iisa ang ama at ina nina Teodora at Jose Alonso — kaya nananatiling palaisipan kung alin ang katotohanan.

Ang Bahay at ang Paglimot sa Kasaysayan

Mahigit dalawang daang taon ang bahay ngunit hindi ito kinilalang heritage landmark. Dahil pribadong pag-aari, ipinagbili ito at planong ilipat ang mga materyales sa Bataan. Nagprotesta ang mga historyador at artista upang iligtas ang bahay, sapagkat bahagi ito ng kasaysayan ng pamilya ni Rizal.

Ngunit para sa may-ari, isa lamang itong pribadong ari-arian.

Unti-unting giniba ang mansyon — kasama ng mga alaala at lihim na dala nito.

Ang Kahulugan ng Katotohanan

Sa huli, nananatiling hindi tiyak ang maraming kuwento tungkol sa pamilya ni Rizal. Ngunit ayon sa mga mananaliksik, hindi kailangang perpekto ang pinagmulan ng isang bayani. Ang mahalaga ay ang kanyang ginawa para sa bayan.

Ipinapakita ng kuwento na si Jose Rizal ay hindi nagmula sa perpektong pamilya — kundi sa isang pamilyang may alitan, tsismis, at sakripisyo. At marahil, dito hinubog ang kanyang pagnanais para sa katarungan at pagkakapantay-pantay.

Aral:

Ang pagiging bayani ay hindi nakabatay sa malinis na angkan, kundi sa tapang na ipaglaban ang tama — kahit may mga lihim ang nakaraan.

Rizal Early Childhood

Rizal Early Childhood

Story Of Moth

- **The Story:** The old moth warned the young one not to get too close to the light, or it would burn. The young moth, fascinated by the brightness, ignored the warning and died in the flames.
- One night in Calamba, young Pepe (Rizal) was distracted from his reading by a moth circling the flame of a coconut oil lamp (*kingke*). His mother noticed his wandering gaze and told him the story of the old moth and the young moth.
- Dona teodora told rizal the story of rizal dahil nakita niya na may ibang potential si rizal. she also saw that rizal's eagerness to study will put him to danger.

Early Childhood

- At 8 years old, he wrote the "Ang mga Kabata
- His 3 uncles added inspiration to him
    - Gregorio Alberto - work hard, to think for himself, and observe life keenly
    - Jose - sketch, paint, and sculpt
    - Manuel - swimming, fencing, wrestling and other sports.
- His second teacher was Leon Monroy.
- After Monroy, Maestro Justiniano Aquino Cruz become his teacher: former teacher of Paciano whom Rizal described as someone who was quick to discipline his students using a short thin stick.
    - Inaway ni Rizal yung anak ni Maestro dahil inaasar siya dahil sa laki ng ulo niya.
    - He told Rizal that he needs to leave his school because he already taught all the lessons he could teach him.
- Rizal was forced to change his school with choices of Colegio de Letran(his father's former school), Ateneo de Municipal(more modern way of teaching), and San jose seminary
